APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued with the express provision that the water diverted shall be returned to the stream undiminished in quantity (due losses of seepage and evaporation not considered) and unpolluted by any cyanide or other deleterious matter. The use for power purposes is limited to Twenty five second feet for the generation of not to exceed One Hundred horse-power. The use for mining and milling purposes is limited to one cubic foot per second. It is expressly made a condition hereof that the water shall be returned to the original channel above all of the present irrigating ditches, particularly that of Gonder and Deardon from this creek. The State reserves the right to regulate the use of this water at any time. The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed Twenty-five cubic feet per second. (25.0)

Actual construction work shall begin on or before June 8, 1916.

Proof of commencement of work shall be filed before July 8, 1916.

Work must be prosecuted with reasonable diligence and be completed on or before June 8, 1918.

Application of water to beneficial use shall be made on or before June 8, 1920. Proof of the application of water to beneficial use must be filed with State Engineer on or before July 8, 1920.

Map filed JUN 15 1916
Proof of labor filed JUN 12 1916

WITNESS MY HAND AND SEAL this 8th, day
of March, 1916.

Proof of occupation of work filed JUL 7 8 1918
